

APP User Management

Next in the Approval Menu, we can choose the access rights that will approve it. When we select the checkbox of the user's access rights, the menu details that we edit or delete will appear as shown below:

The screenshot shows the SIMIAN Application Management interface. The 'App Group' section is active, displaying a table of user groups. The 'Original Data' table is highlighted with a blue box, showing the following data:

Module	Menu	Add Permission	Edit Permission	Del Permission	View Permission	Auth Permission
1	ANTASENA	View Business Rule	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

When we reject data, a notification will appear as below:

The screenshot shows the SIMIAN Application Management interface with a notification dialog box displayed. The dialog box contains the text: "192.168.0.183 says Rejected Data Successfully...!". The dialog box has an "OK" button. The background interface shows the 'App Group' section, with the 'Original Data' table visible below the notification.

We have button action at this menu, see below :

The screenshot shows the SIMIAN MDM Version 1.0.0 interface. The left sidebar contains a 'Main Menu' with options like 'Config Generate', 'Job Conductor', 'Scheduler Job', 'Talent Job', 'Entry Job', 'App Job', 'Job Talent Log', 'Config System Parameter', 'User Management', 'Group Management', 'Entry Group', and 'App Group'. The 'Entry Group' menu is selected, and the 'Actions...' button is highlighted with a red box. The main content area displays a table of 'Entry Group' data with columns: Role Name, Status, Maker Time, Maker User, Maker Time, Maker User, and Checker User. The table contains five rows of data, with the fifth row (Super User) highlighted in green. Below the table, there is a 'Menus' section with 'Dashboard' and an 'Access Menu: Super User' section with a 'Super User' button.
